

Shamrock's Log Book

The log book is formatted directly for printing. The two files to send to the printer are:

Custom Log – insidePrintReady.pdf
Custon Log – covers.pdf

The source files are

Custom Log – inside.odt
Custon Log – covers.odt

Note that the inside source file contains many repeated pages. Any modification would have to be applied to all of them.

This is slightly changed from the current version – the dates have been moved from the title page to the front cover.

The current log books were printed by

<https://www.lulu.com/>

and cost about £13-40 for 4 in June 2019.
